Portugal
Romania
Russian Federation
San Marino
Serbia
Slovakia
Slovenia
Spain
Sweden
Switzerland
Turkey
Ukraine
United Kingdom

- > Collaborative R&D&I projects within **any field of technology**.
- > Development of a product, process or service for any **civilian market**.

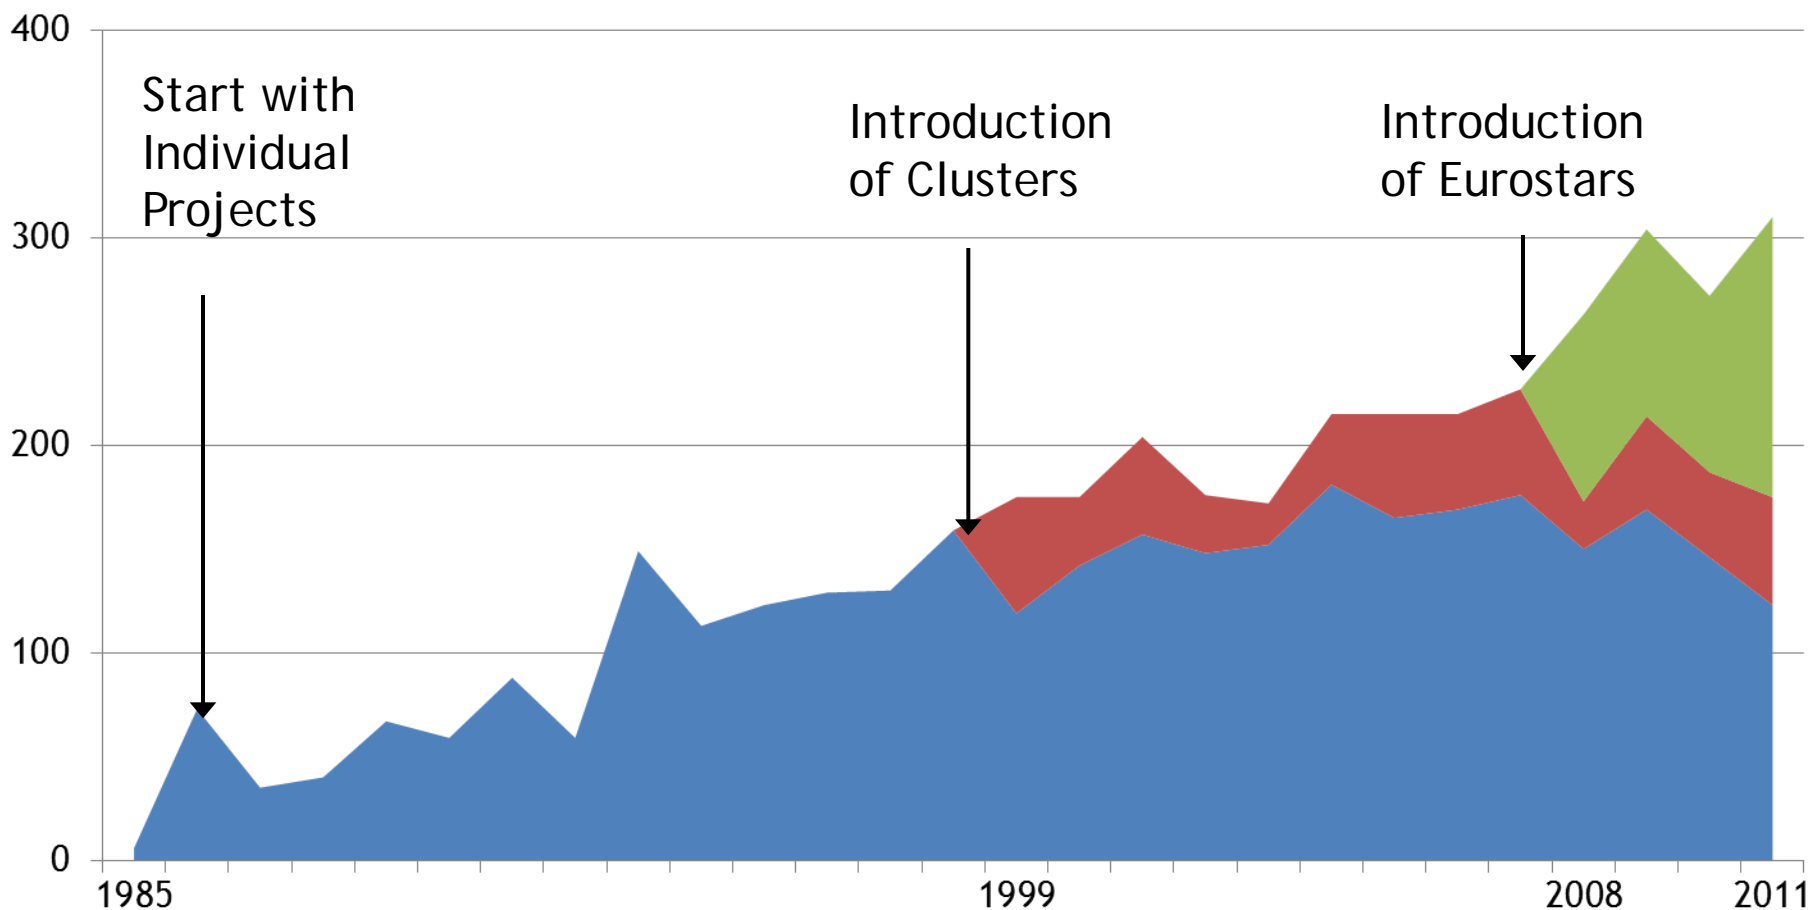

> The majority participation by industry ensures that R&D&I results are **rapidly brought to the market**.

EUREKA: Three pillars

NORWAY
2013/14

Total number of EUREKA projects: 5310

- > Small, shorter-term projects
- > Result in a product, process or service with a significant advance in their sector
- > National evaluation (PAM)

Technological areas

Market areas

- Biotech / medical
- Energy
- Environment
- ICT
- Industrial Products / Manufacturing
- Transportation
- Agriculture, Forestry And Fishing
- Services
- Construction And Building Products
- Other

- ~4 participants
- Typically SME lead
- 33 month average duration
- 1.7 M€

- > Medium-term, strategically-significant initiatives

- > Developing generic technologies of key importance to European competitiveness
- > Evaluation by clusters bodies according EUREKA basic principles

Cluster projects approved in 2012

- ~100 participants
- Large company can lead
- 40 month average duration
- ~ 50-80 M€

- > A joint EUREKA-EU funding programme running 2008-2013 and continued under Horizon 2020 in 2014-2020
- > National funding support in 33 countries, all agreeing to common rules
- > Projects led by R&D-performing, innovative SME
- > Simple and fast application

- > 1.15 Billion euro of public support available between 2014-2020
- > Close to market innovation without thematic restriction
- > Market introduction within 5 years of funding decision

An international evaluation based on 3 major criteria:

- > Project planning and consortium quality
- > Level of technology and innovation of product, process or service
- > Market access and competitiveness

1. Assessment by 3 experts
2. Financial Viability check
3. Scoring & Ranking by an Independent Panel

Technological areas

Market areas

3 to 4 participants, **2 to 3** countries involved

R&D performing SME lead

29 month average duration

1.4 M€

A global project base

NORWAY
2013/14

Country focus

NORWAY
2013/14

Most active regions in

138 running projects

Active in 399 projects

Since 1995

161 M€ of CZ investment

EUREKA - Success Stories

NORWAY
2013/14

www.eurekanetwork.org/projects/success-stories

E! 328 AMADEUS

European-based global computerised distribution system to meet the needs of the travel industry

E! 55 CARMINAT SYSTEM

System for acquisition, transmission, processing and presentation of information to improve driver safety and make trips easier and more efficient

E! 1489 EUROTRAC-2

A study on atmospheric pollution that reveals where pollutants are created, under what chemical disguises they travel and human and environmental health consequences

MEDEA+ A302

Making secure transactions viable
through the development of generic
smart card open platforms

Monitoring your car for a safer driving

Each year over 40,000 people are killed on Europe's roads. The partners of MEDEA+ project CARING CARS aim to drive down these chilling statistics with a system comprising in-car sensors and a wireless infrastructure monitoring the vital signs of drivers and sounding an alert if there is a problem linked for example to the driver's fatigue.

Participating countries:
Turkey, The Netherlands, Spain

EUREKA Cluster project
MEDEA+ CARING CARS

Internet could be 10 times faster than it is

Could the Internet just stop working one day? With bandwidth requirement increasing annually as the web becomes an ever larger part of the everyday life, keeping up is a challenge for Internet service providers. A EUREKA telecommunications cluster CELTIC-Plus project is pushing capacity upwards.

Participating countries:
Germany, Finland, France,
Spain, Sweden

**EUREKA Cluster project
CELTIC 100GET**

Managing Academic Knowledge with INtegrated, collaborative Tools

Develop a consistent database of academic knowledge, driven by semantic algorithms, to manage and share academic content, and to achieve superior recommendations based on personalised user profiles and user preferences.

eurostars™

EUROSTARS project > E! 4811 MAKIN'IT

Participating countries:

Austria, UK, Estonia

Cost: 0.86 M€

UK Company Mendeley has sold their developed technology **for \$ 100 M**

EUREKA means international project co-operation

EUREKA network means links to partners,
financing bodies, experts and customers

EUREKA means business
