

The Department of Research and Development of UCT Prague invites
Ph.D. students and their supervisors, investigators and opponents

To the seminar

ASPECTS THAT CAN INCREASE EVALUATION SCORE OF YOUR PROJECT PROPOSAL

Tuesday, 24 October 2017, 1:30 – 4:30 p.m.

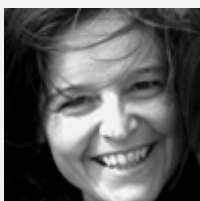

Historical library of UCT Prague, A 201
Technická 5, Prague 6 – Dejvice

PROGRAM:

Lecture and discussion in English on the following topics:

- Is the topic of your scientific work related to human health, nutrition or another topic with a direct impact on human life?
- Do the new technologies, whose development you take part in, take into account the requirements of various user groups (women, men)?
- **Can you identify these aspects well and describe them in your project proposal for the research grant application ?**

LECTURER:

Katrien Van der Heyden, consultant of the leading European Yellow Window agency, which provides training in this area both to the European Commission and to universities and research institutions.
